PREAMBLE

The Electrical and Electronics Engineering Department of Rajarajeswari college of engineering is charged with responsibility of getting training technical and scientific manpower in various front-line areas of importance by undertaking industrial and applied research.

Whereas the Venjay System situated in K.H Ranganatha colony, Mysore road, Bangalore-560039. Venjay systems actively involve with customers in developing new concepts and projects. Some of them are listed below.

- Energy Saving system

This product was developed along with our customer and works on the principle of managing many sources to make each source energy efficient.

- Hybrid generator

This product was developed along with our customer and uses logic solving for combining
different sources of power generation, viz., Solar, wind and diesel engine.

- ANDON display boards

This product is a cost effective 200 mm height display, which uses PLC discrete ios to display a single variable. Used mainly in automotive industry. This product uses state of the art micro controller and display LEDs.

Whereas, Both RRCE and VENJAY SYSTEMS, Now

- Recognizing the Importance of Imparting in all Training to the Engineering Students etc.
- Appreciating the need for creation of Large reservoir of highly Qualified Man Power
- Desiring to Club their efforts by pooling their expertise and resources.

Intend to form nucleus for promoting excellent Quality Man Power in the field of Engineering Technology and Science with special emphasis to
