On

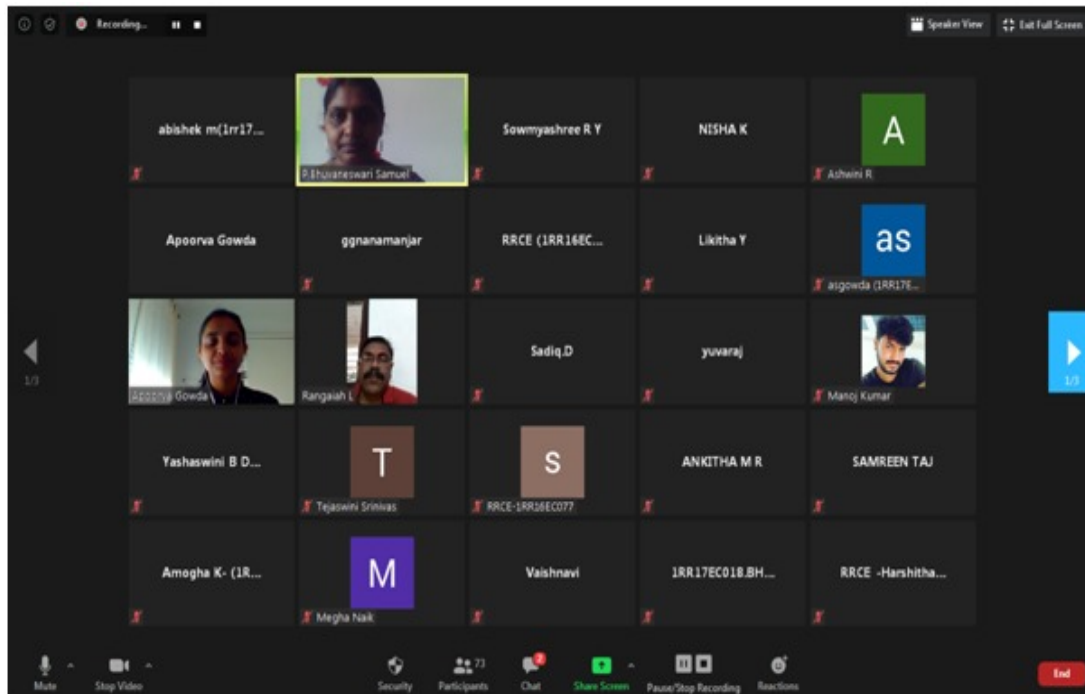

“Current Engineering Technologies-PART-1”

- **Date:** 16th May 2020

Sl.No	Resource Person	Topic
1	Mr. Sankeerth B G, SME, Dunzo, Budding Entrepreneur , Bangalore	Soft skills
2	Ms. Gnana Manjari , DXE Technology ,Bangalore	SAP servers
3	Ms.Bindu R, Gemni Electro Corporation,Bangalore	PCB Design
4	Ms.Apoorva .P , Panosonic Automative System, Bangalore	Electronics Job markets and opportunities around the globe

- **Platform:** Zoom Meeting, ID: 87541324699
- **Objective :**
 - To enlighten the students with basic soft skills, different types of communication skills
 - To provide a better understanding of time management, ,critical thinking and problem solving
 - To understand the layers of storage, components of storage, net application supporting system of SAP servers.
 - To get the basic knowledge on PCB, types of PCB, and PCB schematic structure
 - To know the various job opportunities in the field of automotive, medical, semiconductor, aerospace, telecom industries
- **No. of participants:** 100
- **Target Participants:** Students of 4th 6th and 8th semester of ECE department.
- **Outcome of the event:** The Students gained knowledge on

- Basics of time management and soft skills which is required to attend interviews.
- How to design a PCB and various types of PCB.
- Architecture of PCB design
- SAP servers and its various usage in communication field.
- Various Job Opportunities in electronic Industries.
