2. TITLE THE EVENT: ONCOLOGY BLOCK

3. RESOURCE PERSON: DR.V. RAMESH

4. ORGANIZER: Mrs. KAVYA M P M

5. EVENT DATE AND DURATION: 23rd OCTOBER 2021 (10.00AM onwards)

6. PLATFORM: RAJARAJESWARI MEDICAL COLLEGE AND HOSPITAL(Offline)

7. TARGET PARTICIPANTS: *UG students (8th semester)*

8. NUMBER OF PARTICIPANTS: 30

9. OUTCOME OF THE TECHNICAL SEMINAR:

- This PROJECT EXHIBITION was aimed to enhance the knowledge of students about the construction and structural designs implemented in different infrastructures .
- The prefinal year students were given the basic idea of exhibiting their final year project which is a part of the course in the next semester and thereby providing them with the necessary introduction.
- The aim of the exhibition was to mainly highlight the practical knowledge or the practical skills.

- Medical oncology is a core member of MDT and offers “**Cancer patients a comprehensive and systematic approach to treatment and care**”.
- **Radiation therapy uses high energy radiation to shrink tumors and kill cancer cells (gamma rays and charged particles), so special designs are implemented in construction of cancer therapy blocks**
