

Alumini Note

SREE HARSHA ADUSUMILLI

Application Software Engineer
Elektrobit Automotive Americas Inc, USA
ALUMNI - DEPT. OF ECE

I found it relatively easy to decide which course to pick, it was where to go which I found it harder to decide at the time of counseling. The main reason for going to university is not just to achieve an Engineering Skills during our academic years, but also the other things that you learn at college, like Independence, Confidence, Communication Skills, Desire to achieve Goals are equally important. Now, I am a successful professional and would like to thank all my Professors & Lectures for providing me these opportunities at RRCE and guiding me to become what I am today. It's a place where I did my first project and acquired a lifestyle of discipline & internalized the drive for self-improvement in Domain Engineering. My College life has been the best time of my life. I wish RRCE would benefit every student similarly and reach to the peak of success.

MYTHRI

Lead Engineer
Samsung
ALUMNI - DEPT OF ECE

Attending RRCE for the first time has been a trying but great experience for me. The way in which RRCE grow up, mature, and find out who you really are, is something you can't accomplish without going to college. The feelings of being home sick, the loneliness of not knowing anyone, living with someone you have never met before, are just some of the struggles of being at the college for the first time. RRCE is a roller coaster of ups and downs, but with having met great Teachers and friends and starting to like life away from home is making RRCE one of the best experiences of my life.

Last but not least, I would like to thank all my Lecturer's and friends for being who I am today.

ARUN G
Treasurer
Asst. Prof.
Dept of ECE
ICEAS
Alumni - Dept of ECE

The time I spend in RRCE was an exceptionally an extra-ordinary experience. The competency and the professionalism of the professors were nothing less than outstanding. Being a Member of core committee group, event organizer for the college events & functions and many such co-curricular activities have helped me gain leadership skills, ethical values and made me a better Individual.

VARNA V NADIGER
1RR18EC120
ALUMNI - DEPT. OF ECE
Accord global technology
solutions private limited
System engineer

It was a wonderful experience at RRCE with an excellent exposure provided across the various platforms. The faculty are very supportive and encourage students to push boundaries to rise above expectations. RRCE targets for an overall development of every student, be it education, cultural awareness or practical exposure of business world like industrial exposure and international tour. The placement activities are pretty good and come with a training given on how to conduct oneself and face interviews confidently. The ambience of the campus is very positive and the whole experience is very good and there is always support & motivation from the management to pursue our dreams.

SRIKANTH KADUDULA
Software Engineer
Cequent Performance Products, MI, U.S.A
Alumni – Dept. of ECE

I am proud to have graduated from this institution. As an RRCE alumnus, I value, time spent there and I am grateful for the skills and opportunities the education has given me. I'm honored and delightful to share my experiences towards my college. The first thing I want to say is thank you to all my teachers who made me what I am today. RRCE is a stepping stone which let me to explore myself. College played a big role in building my confidence, beliefs which do help for my job, Masters in US and social life. College years are "the best years of my life". It's a place which grew a desire in me to achieve something in the professional world. The way in which you grow up, mature, and find out who you really are, is something you can't accomplish without going to college. I wish RRCE would benefit all the upcoming students and stand at the epitome of success.

SUHAS B SRIHARI
Asst. Professor for ETC/MTC
Govt. Tool Room & Training Centre
ALUMNI –DEPT OF ECE

R.R.C.E, simply put is an abode for education. I am proud to be associated with this institute as the first admitted batch. The faculty along with us students has strived to reach the pinnacle of education that lies before us and I would like to say we are already halfway through. R.R.C.E has taught me grace in defeat as well as humility in victory. Today I'm a proud alumnus of this esteemed institution. I wish the path taken by the institution leads it to greater heights and grandeur.
