Message From Principal's Desk Dr. BALAKRISHNA R

It is happy and proud to showcase the achievements of ECE, especially Learning & achievements grow is an environment that nurtures it and RajaRajeswari College of Engineering has taken great part to ensure that students lack for nothing and

likelihood of achieving this is strengthened by the fact that we offer an academic program that includes breadth and depth, is rigorous, and which can be tailored to individual needs.

RRCE has strived to be unique by encouraging research on campus as a means to take classroom teaching-learning to new heights. Every laboratory doubles up as a research centre/project arena where staff and students vie with each other to create new designs, working models, test new concepts. Student chapters of various associations compete with each other to organize the most challenging, innovative and popular event.
