5. Semester : 3<sup>rd</sup> semester, Robotics and Automation
6. Summary of Programme :

- **Cultural understanding:** Students can learn about different countries and cultures by researching, preparing, and presenting food from various regions, as seen in events focused on international cuisines.
- **Nutrition awareness:** They can learn to differentiate between healthy and unhealthy foods, understand the importance of a balanced diet, and appreciate nutritious ingredients.
- **Research and presentation skills:** Students can develop research skills by learning about a food item's history, ingredients, and preparation. They can also practice public speaking by presenting their dishes and their cultural significance.
- **Hands-on learning:** The activity provides a fun, interactive way to learn about food, cooking, and the role of food in different cultures, especially for younger children.
