“MINI Project Expo”

Invited Guest: 1. Mr. Nanda Gopal
HOD, Dept Of CSE
ACS College of Engineering

2. Mr. Venkatesh
Assistant professor
ACS College of Engineering

Date of the event : 28-11-2025

Venue : 5th floor Lobby

Target Participants : 3rd year students, Faculty

Coordinators : Mrs. M. Supraja, Mrs. N. Ushashree

Overview of the Event:

The event served as a platform for graduating students to demonstrate their technical proficiency, innovative thinking, and ability to solve real-world problems. A total of 35 projects were showcased attracting industry professionals, faculty members, and junior students.

The primary objectives of the Third Year Mini Project exhibition were centered on bridging the gap between academic theory and professional practice. By showcasing their work, students demonstrated the practical application of their technical knowledge, proving their readiness for the professional world. The event functioned as a vital link for industry engagement, creating a platform for recruitment and collaborative opportunities between students and visiting experts. Furthermore, the exhibition served an educational purpose by fostering peer learning, allowing junior students to benchmark the standards expected of them. Finally, it provided a structured environment for formal assessment, enabling both internal and external examiners to evaluate each project based on its innovation, design complexity, and real-world functionality.

Outcome of the program:

The exhibition successfully yielded several significant outcomes, most notably the high level of technical competency displayed by the graduating cohort. A key result was the strengthening of industry-academic ties, as evidenced by the presence of industry partners, several of whom expressed interest in further developing specific student prototypes or offering internship opportunities.
