## Circular

It is here by informed to all the students that the department is organizing Industrial Visit at "RUBIXe Technologies" held on 12th December 2025. All are requested to attend the Industrial Visit and make better utilization of the recourse person and opportunity.

### Industrial Visit at RUBIXe Technologies

Resource person :Mr. Deepak

Date of the Event :12-12-2025

Venue :: House, 7th Mile, C.

Bajrang, 25, Bengaluru Chennai Hwy,

Kudlu Gate, Krishna Reddy Industrial Area,  
Bengaluru, Kamataka 500068.

Target participants:2nd year students

Faculty coordinator:Deepali .A. Dixit

Overview of the Event:

Our department organized an industrial visit to gain practical insights into the rapidly evolving field of Artificial Intelligence. The sessions were designed to bridge the gap between academic theory and industry application, focusing on the mechanics of Large Language Models (LLMs) and the practicalities of AI service integration.

The first session provided a comprehensive deep dive into Large Language Models (LLMs). The resource person detailed how these advanced AI systems are engineered to understand and generate human-like text with high precision.

- Core Technology: LLMs are built using deep learning techniques, specifically leveraging transformer-based neural networks.
- Training Process: These models are trained on massive datasets—including books, articles, and diverse online content—to identify complex patterns, grammar, and contextual nuances.

In the second session, Mr. Deepak conducted a practical walkthrough on how to integrate AI services into custom applications using API (Application Programming Interface) keys.

The visit was highly educational, providing students with a clear understanding of both the "brain" (LLMs) and the "bridge" (APIs) of modern AI. This experience equipped us with the foundational knowledge required to build and secure our own AI-driven projects.
