Suggestions by BoS members:

- **Introduction to Electrical Engineering**
 - Retain the 2024 scheme syllabus.
 - Modify **Module 5 subtitle** – change "*Domestic Safety*" (suggested by Subject Expert – Dr. Agalya V).
- **Basics of Electrical Engineering**
 - Include a few additional topics from **Electrostatics** and **Electromagnetic Induction**.
 - Ensure the change is within the permissible **20% limit** (suggested by Subject Expert – Dr. Agalya V).
- **Basic Electrical Lab**
 - Omit the experiment "**Measurement of three-phase power by 2-wattmeter method**" as it is already included in higher semester practicals
 - Split **2-way and 3-way control of lamps** into **two separate experiments** for better clarity.
