#### Overview of the Event:

An Alumni Talk on the topic “College to Corporate” was organized to provide students with insights into the transition from academic life to the professional corporate environment. The session was delivered by **Aisiri P**, an alumna of the **2021–2025 batch**. She is currently working as a **Security Operations Centre (SOC) Analyst** with experience in handling cybersecurity platforms such as **SIEM (Security Information and Event Management)**, **SOAR (Security Orchestration, Automation and Response)**, and **XDR (Extended Detection and Response)**.

During the session, she shared her journey from college to the corporate world and explained the challenges she faced while adapting to the professional environment. She highlighted the importance of developing strong technical knowledge, communication skills, and continuous learning to succeed in the industry. She also provided insights into the responsibilities of a SOC Analyst, explaining how cybersecurity professionals monitor network activities, detect potential security threats, and respond to incidents using advanced security tools.

### Outcome of the program:

The Alumni Talk on “College to Corporate” provided students with valuable insights into the transition from academic life to the professional corporate environment. The session by Aisiri P helped students understand the expectations of the industry and the skills required to succeed in the corporate world.

Students gained knowledge about career opportunities in the field of cybersecurity and the role of a Security Operations Centre (SOC) Analyst. The discussion on cybersecurity platforms such as SIEM, SOAR, and XDR made students understand how security professionals monitor systems, detect threats, and respond to cyber incidents.

Overall, the session motivated students to focus on developing technical skills, improving communication abilities, and preparing themselves for real-world corporate challenges. The talk was highly beneficial in bridging the gap between college learning and industry requirements.
