RRCE, Bangalore.

INTRODUCTION :

- The Department of Information Science and Engineering organized a One-Day Workshop Program on “Workshop on AI Tools” on 06th May 2026 at RRCE Room No: 205. The Workshop event was conducted with the objective of enhancing the programming skills of students and providing practical exposure to advanced concepts in AI tools and real-time project development methodologies.
- Artificial Intelligence (AI) tools have rapidly transformed the way individuals and organizations work by enhancing productivity, automation, creativity, and decision-making processes across various domains. Considering the growing adoption of AI technologies in industries such as software development, data analytics, education, research, and business automation, this workshop was designed to provide participants with practical exposure to modern AI tools and their real-world applications. The workshop aimed to help students and professionals understand the effective use of AI-powered platforms for content generation, data analysis, coding assistance, presentation creation, automation, and problem-solving through hands-on and activity-oriented learning approaches.

Department of Information Science & Engineering

OBJECTIVE :

The major objectives of the Workshop event were:

- To introduce participants to the fundamentals and significance of Artificial Intelligence tools in modern industries.
- To provide hands-on exposure to popular AI-powered platforms and applications used in education, business, research, and software development.
- To enhance productivity and problem-solving skills using AI-based automation and intelligent assistance tools.
- To develop practical knowledge in AI-assisted content generation, coding support, data analysis, and presentation creation.
- To familiarize students with the real-world applications of Generative AI technologies across various domains.
- To encourage innovation, creativity, and efficient decision-making through AI-enabled solutions.
- To bridge the gap between academic learning and current industry requirements in the field of Artificial Intelligence.
- To motivate participants to explore advanced AI technologies and their future career opportunities

Key Outcomes :

During the One-day Workshop program, various advanced topics in AI were covered in detail. The sessions included both theoretical explanations and hands-on practical demonstrations.

The important topics covered during the event include:

- Participants gained practical knowledge of various AI tools and their real-world applications.
- Enhanced understanding of Generative AI technologies and AI-powered automation platforms.
- Improved productivity and problem-solving abilities through the effective use of AI tools.
- Developed hands-on experience in AI-assisted content creation, coding support, data analysis, and presentation development.
- Acquired awareness of current industry trends and emerging career opportunities in Artificial Intelligence.
- Strengthened analytical, creative, and decision-making skills using intelligent AI solutions.
- Enabled participants to apply AI tools effectively in academic projects, research activities, and professional tasks.
- Encouraged innovation and technology-driven learning among students and professionals.

Resource Person Profile

Resource Person Name

Mr. CHHOTOO GHADGE

Designation: Trainer – Data Analytics, Data Science, AI/Machine Learning & Deep Learning SME

Company Name: Freelance Corporate Trainer

Summary

Experienced and dedicated **Data Analytics and Data Science Trainer** with over **26+ years of professional experience** in Market Research, Data Analytics, Artificial Intelligence, Machine Learning, Deep Learning, and Learning & Development. Passionate about empowering students and professionals through practical, industry-oriented training programs delivered in online, hybrid, and offline formats

Student Participation and Interaction

The workshop witnessed enthusiastic participation from students, with active involvement in hands-on sessions, discussions, and interactive activities related to AI tools and their practical applications. Participants showed keen interest in exploring various AI-powered platforms for content generation, coding assistance, automation, data analysis, and presentation development.

Students actively engaged in question-and-answer sessions, collaborative learning activities, and practical demonstrations, which enhanced their understanding of emerging AI technologies. The interactive nature of the workshop encouraged knowledge sharing, creativity, and innovative thinking among the participants, making the session highly informative and impactful.

Outcomes of the SDP Event

The event proved to be highly beneficial for the students. The following outcomes were achieved:

- Students understood the importance and applications of AI tools in various domains.
- Participants gained hands-on experience with modern AI-powered platforms and technologies.
- Enhanced practical knowledge in AI-assisted content generation, coding, automation, and data analysis.
- Improved creativity, analytical thinking, and problem-solving abilities through interactive activities.
- Increased awareness about emerging trends and career opportunities in Artificial Intelligence and Generative AI.
- Developed confidence in using AI tools for academic, research, and professional purposes.
- Encouraged innovative thinking and technology-driven learning among participants.
- Strengthened industry readiness by bridging the gap between theoretical concepts and practical implementation.

Feedback

The workshop was highly informative and interactive, providing students with practical exposure to modern AI tools and technologies. Participants actively engaged in the sessions and appreciated the hands-on learning approach. The workshop enhanced their understanding of Generative AI, automation, and AI-based applications. Overall, the program was well-received and beneficial for academic and professional development.

Conclusion

The Workshop on AI Tools was successfully conducted with active student participation and interaction. The session provided valuable knowledge about modern AI technologies and their practical applications. Participants gained hands-on exposure to various AI-powered tools used in academics and industry. The workshop enhanced students' technical knowledge, creativity, and problem-solving skills. Overall, the program created awareness about the growing importance of Artificial Intelligence and motivated students to explore future opportunities in the field.
