Day 1 – 03rd Aug, 2026

INAUGURATION

First-Year UG Induction Program 2026–27 at RRCE

Rajarajeswari College of Engineering (RRCE) successfully inaugurated the Induction Program 2026–27 for first-year B.E., BBA and BCA students. The inaugural session marked the beginning of the students' academic journey and introduced them to the institution's Vision, Mission, core values, academic environment, and campus culture.

The programme was designed to support a smooth transition into college life while encouraging confidence, discipline, creativity, innovation, personal growth, and academic excellence.

The induction programme provided students with an enriching start to their college journey, creating opportunities for learning, interaction, skill development, and meaningful engagement.

Outcome: The programme successfully welcomed and oriented the new batch, helping students begin their academic journey with clarity, confidence, and enthusiasm.

Day 1 – 03rd Aug, 2026

SESSION 1: Address by Principal

Rajarajeswari College of Engineering (RRCE) successfully inaugurated the Student Induction Program 2026–27, warmly welcoming the newly admitted First-Year UG students to their academic journey.

The inaugural address was delivered by Dr. R. Balakrishna, Principal, RRCE, on the theme “Institutional Vision, Mission, Core Values & Expectations.” He guided students on understanding the institution’s values and encouraged them to set meaningful goals for their four-year academic journey.

The session highlighted the importance of academic excellence, innovation, discipline, goal setting, and holistic development. Students were encouraged to actively participate in academic and co-curricular activities and make effective use of the opportunities available at RRCE.

SESSION 2 - Report: Student Life Session

As part of the First-Year UG Induction Program 2026–27, Rajarajeswari College of Engineering (RRCE) successfully conducted an interactive session on “Student Life – Mentoring, Clubs, Campus Facilities, Anti-Ragging, Student Support & Responsibilities.”

Dr. P. Ebby Darney, Dean – Student Affairs & 1st Year Coordinator, RRCE, shared valuable insights into campus life, mentoring, student support services, clubs, extracurricular opportunities, anti-ragging measures, discipline, and student responsibilities.

The session helped students understand the various facilities and support systems available at RRCE and encouraged them to actively participate in campus activities while maintaining discipline and responsibility.

The session concluded successfully with enthusiastic student participation, providing a strong foundation for a confident, responsible, and enriching college experience.

Exploring the Physics Behind Engineering & Everyday Technology

As part of the First-Year UG Induction Program 2026–27, Rajarajeswari College of Engineering (RRCE) conducted an engaging session on “Physics Behind Engineering and Everyday Technology.”

The session was led by Prof. K. P. J. Reddy, Retired Faculty, Indian Institute of Science (IISc), Bengaluru, who connected fundamental concepts of physics with engineering applications and everyday technologies through practical examples and insightful discussions.

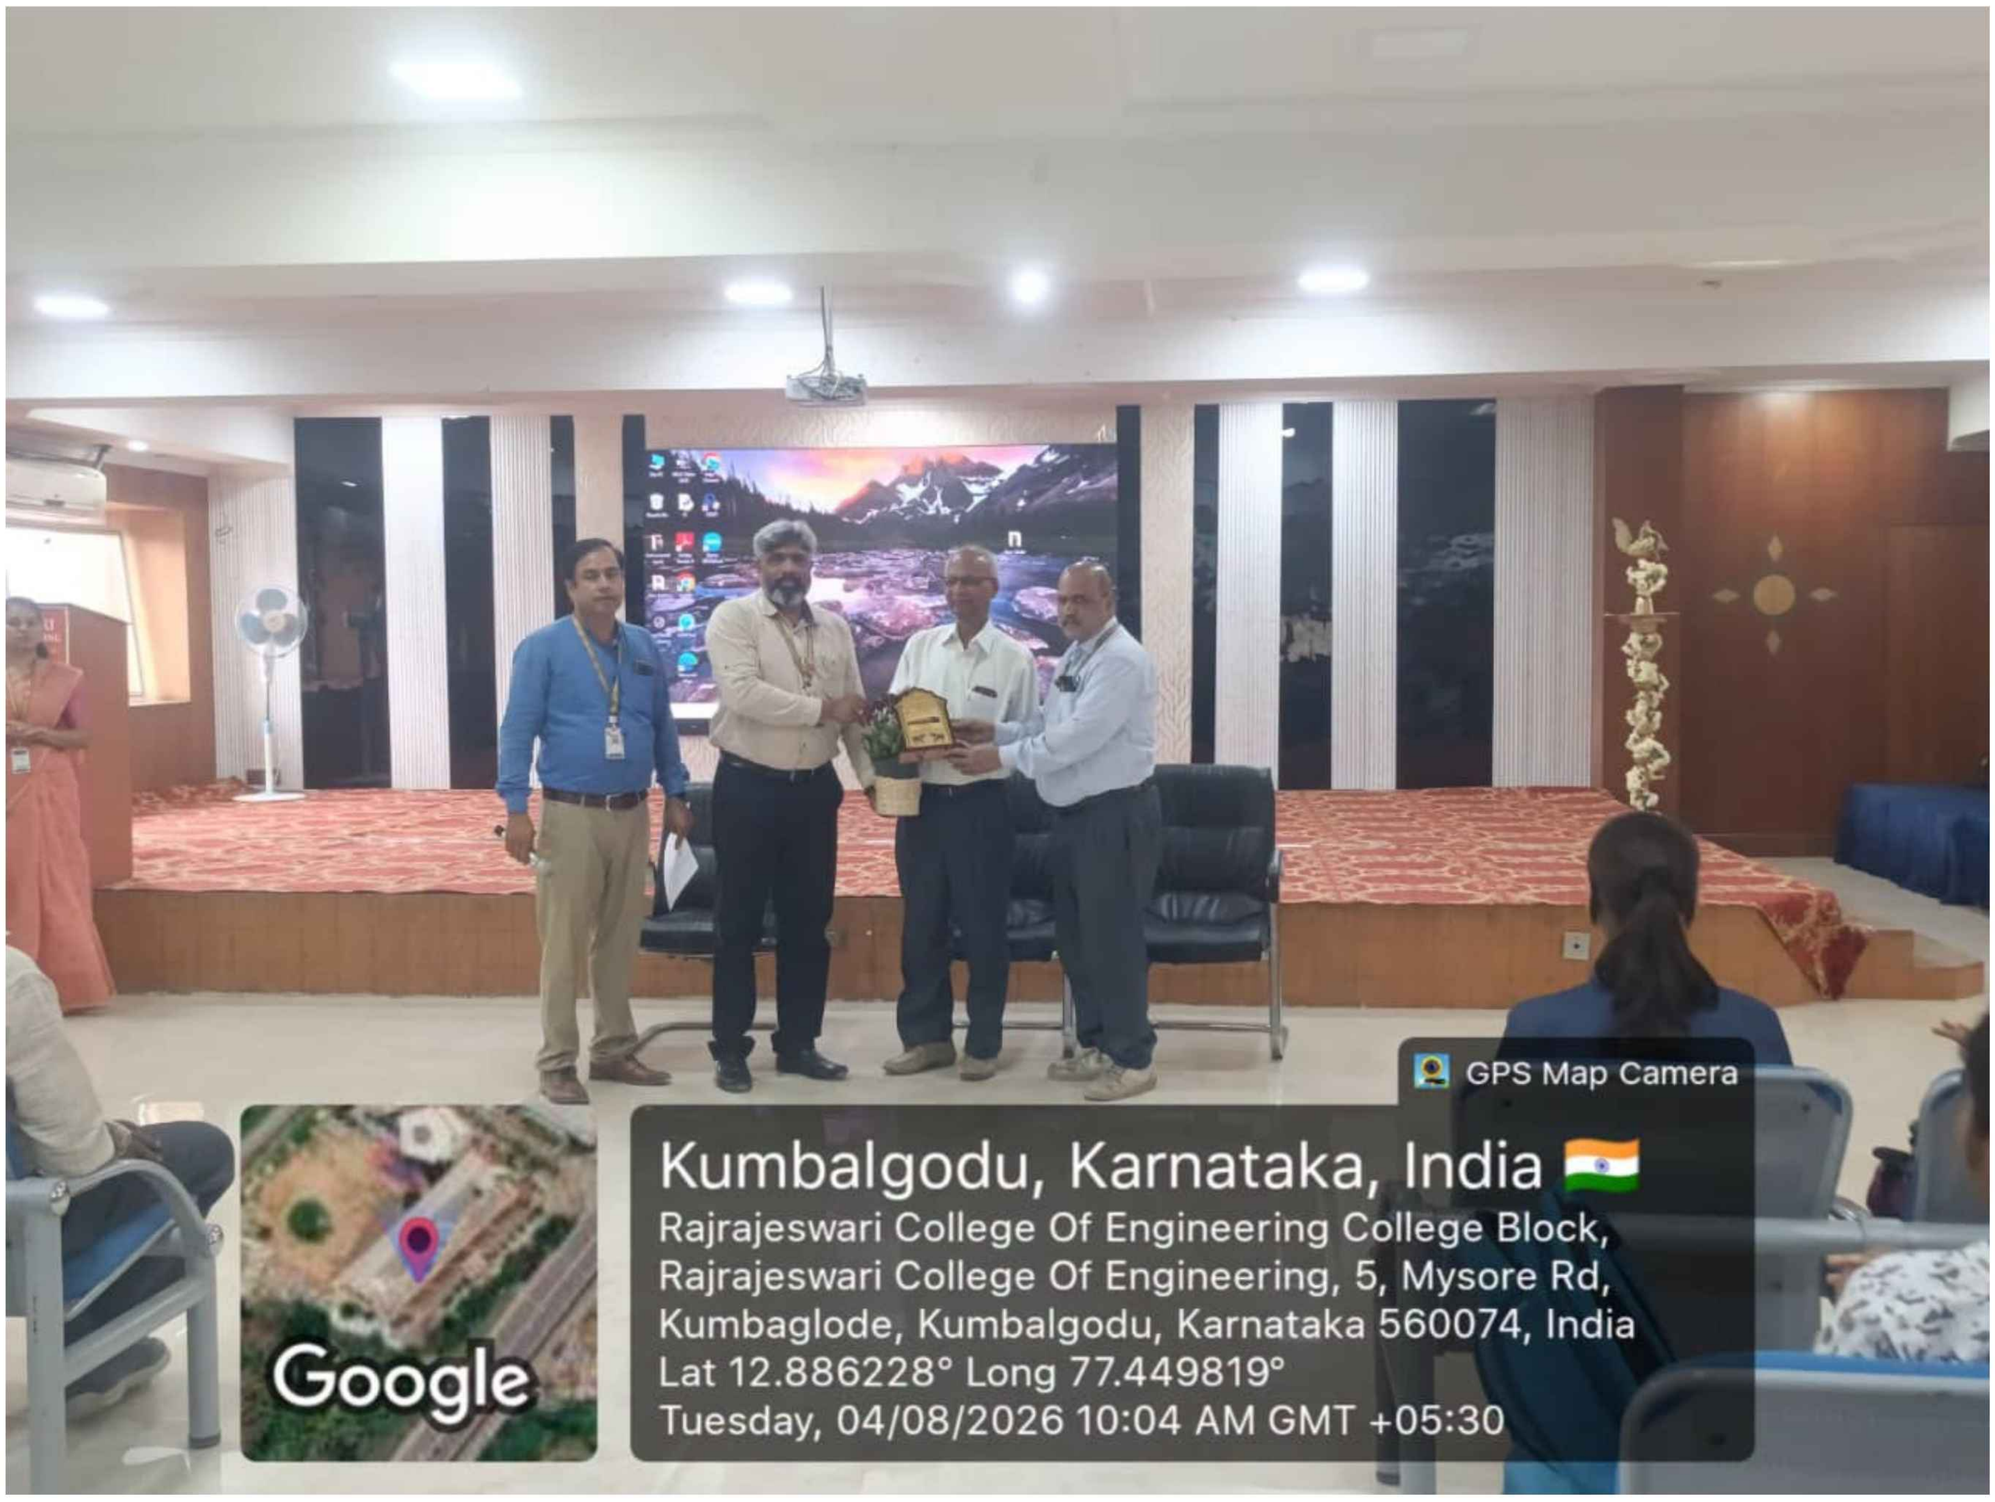

The session inspired students to observe, question, think critically, and appreciate the scientific principles behind modern engineering and innovation. It provided an enriching learning experience for the first-year students.

Day 2 – 04th Aug, 2026

SESSION 2 - Report:

Power of Self-Belief: Building Confidence for the Future

Confidence begins with believing in one's own potential. This message formed the central focus of Day 2 – Session 2 of the First-Year UG Induction Program 2026–27 at Rajarajeswari College of Engineering (RRCE).

The session on "Power of Self-Belief" was led by Dr. Sunil Kumar K., Associate Professor & HoD, Department of Mechanical Engineering, R L Jalapa Institute of Technology, Doddaballapur.

Through an engaging and motivational interaction, students explored the importance of self-confidence, resilience, positive thinking, and a growth-oriented mindset. The session encouraged them to overcome self-doubt, recognise their strengths, embrace challenges, and approach their academic journey with determination.

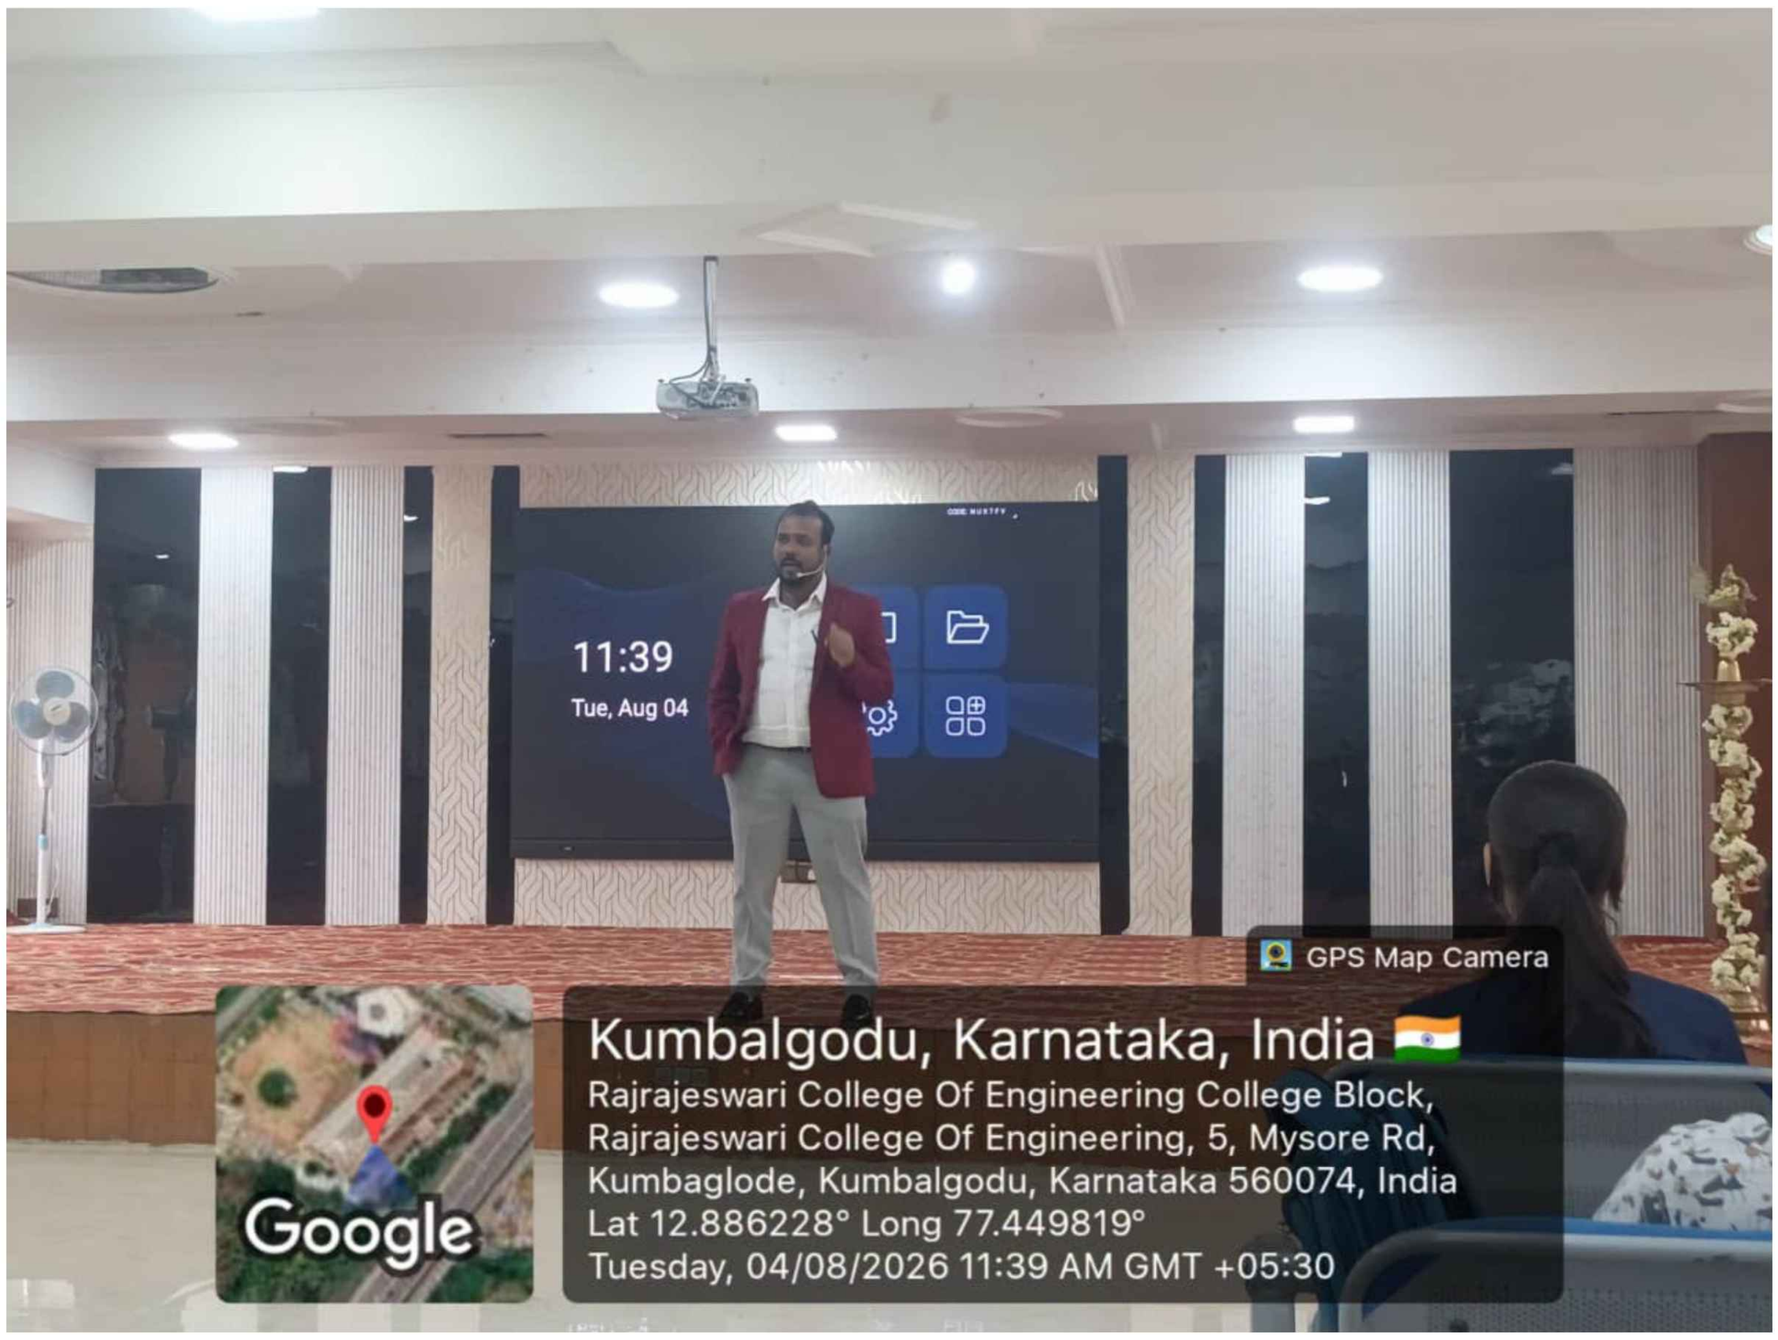

The interaction concluded with enthusiastic student participation and left the young learners inspired to believe in themselves, develop their potential, and confidently work towards their academic and career aspirations.

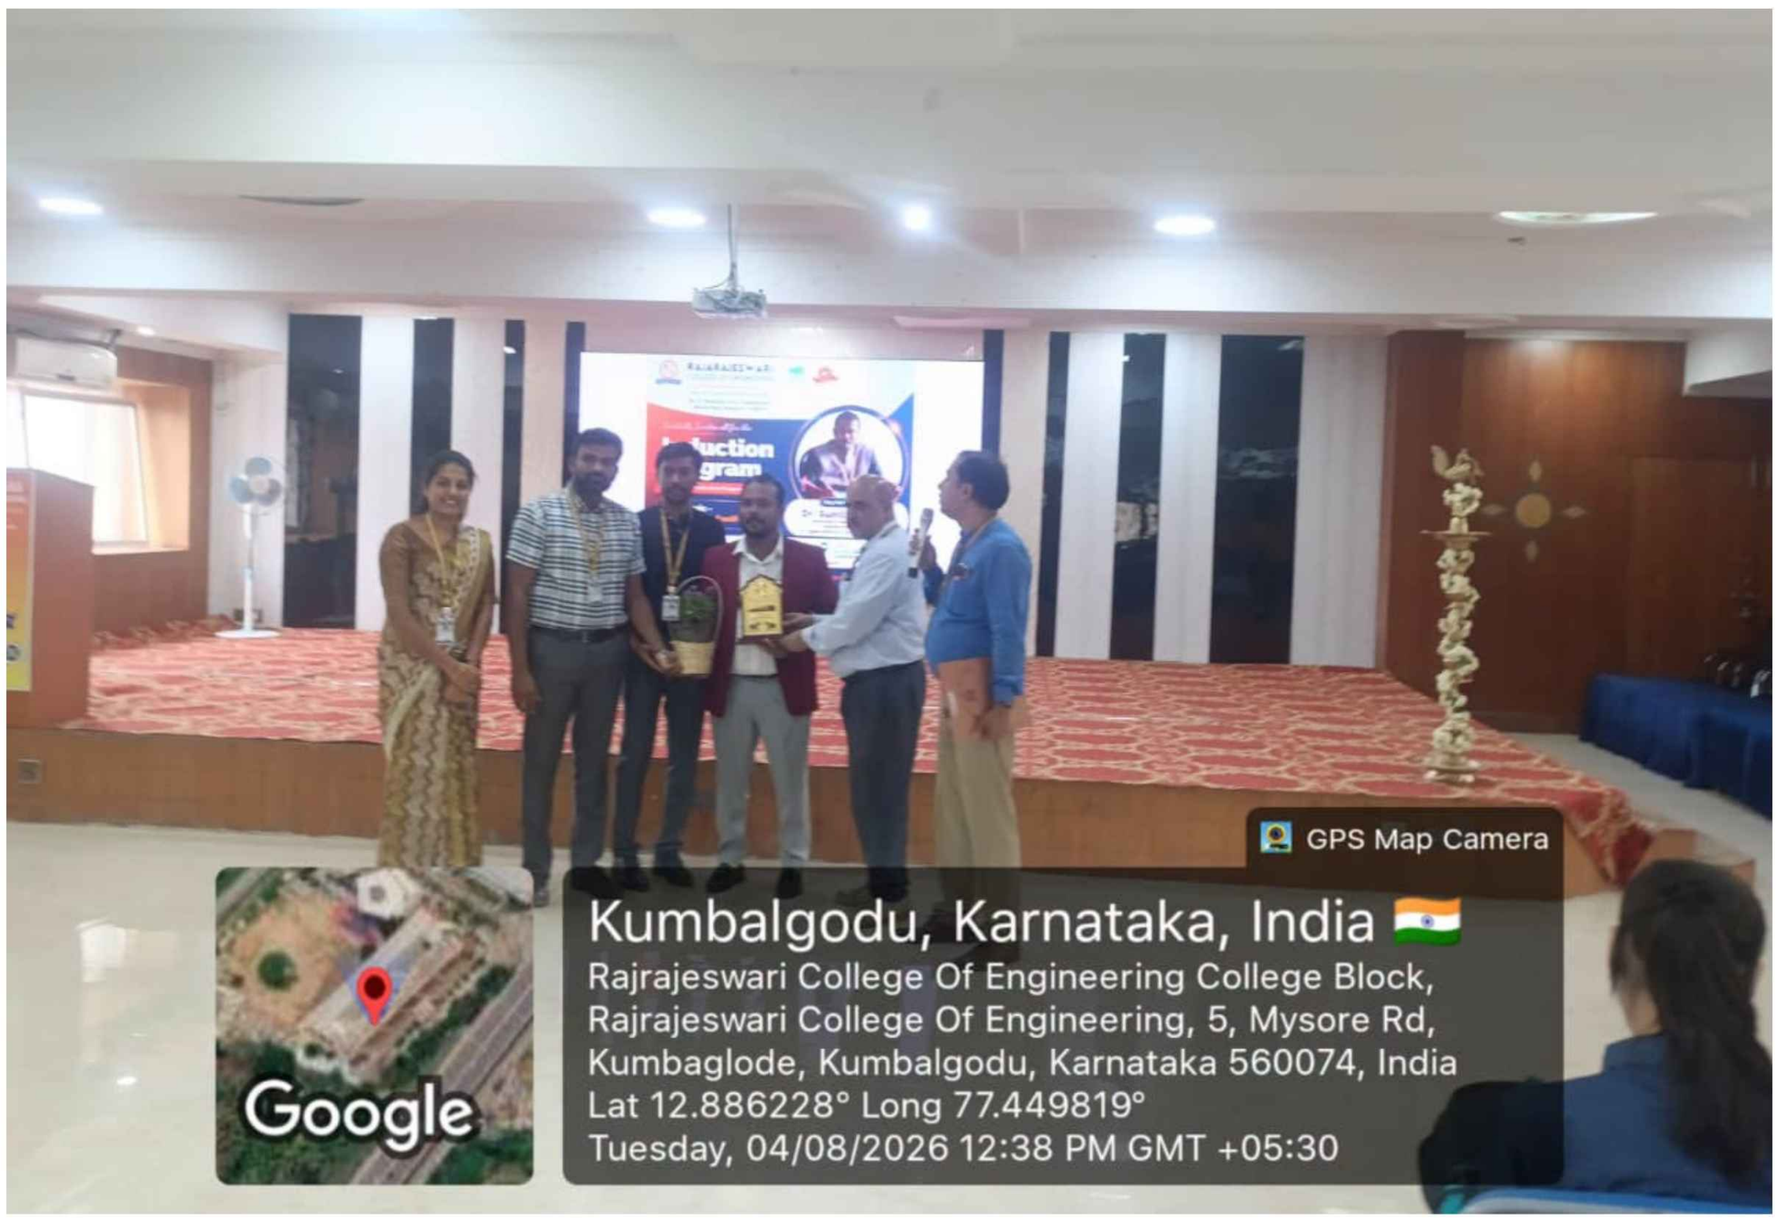

This approach will make the entire report series feel more professionally written rather than following one fixed template.

Mathematics: The Invisible Engine Behind Engineering & Innovation

Mathematics plays a fundamental role in shaping modern engineering and emerging technologies. This was the key focus of Day 2 – Session 3 of the First-Year UG Induction Program 2026–27 at Rajarajeswari College of Engineering (RRCE).

The session, titled "Mathematics: The Invisible Engine Behind Engineering, Artificial Intelligence and Innovation," was led by Dr. Kallur V. Vijayakumar, Department of Mathematics, BMS Institute of Technology and Management, Bengaluru.

Through engaging discussions and real-world applications, students explored how mathematics supports engineering, Artificial Intelligence, data science, analytical thinking, and technological innovation. The session helped students recognise mathematics not merely as an academic subject, but as a powerful tool for understanding complex problems and developing innovative solutions.

The session concluded with enthusiastic participation, inspiring students to strengthen their mathematical thinking and appreciate its role in shaping the future of engineering and technology.

Goal Setting: Turning Dreams into a Clear Roadmap

A clear goal provides direction, while consistent action turns ambition into achievement. This was the focus of Day 3 – Session 1 of the First-Year UG Induction Program 2026–27 at Rajarajeswari College of Engineering (RRCE).

The session was led by Mr. R. Sathishraj, CEO – E-Crusaders, Entrepreneur, Trainer, Speaker & YouTuber, who engaged students in understanding the importance of goal setting, focused action, discipline, and a success-oriented mindset.

Through interactive discussions and practical insights, students were encouraged to identify meaningful goals, overcome challenges, remain committed to their aspirations, and develop a clear roadmap for their academic, personal, and professional growth.

The session inspired the young learners to think big, believe in themselves, stay focused, and take purposeful steps towards building a successful future.

Data, Information & AI: Preparing Engineers for an Intelligent Future

Understanding data is the first step towards understanding the intelligent technologies shaping our world. This was the focus of Day 3 – Session 2 of the First-Year UG Induction Program 2026–27 at Rajarajeswari College of Engineering (RRCE).

The session on "Data, Information and A.I. Applications" was led by Mr. Avinash Awate, PMP®, CSM, AI Transformation Leader, who shared valuable insights into the growing role of Data and Artificial Intelligence across industries.

Students explored concepts related to AI-driven innovation, digital transformation, emerging technologies, and future-ready skills. The interactive session encouraged them to think creatively, adapt to technological change, and understand the opportunities emerging in an AI-powered engineering landscape.

The session provided an enriching learning experience and motivated students to embrace technology, innovate with confidence, and prepare themselves for the future of engineering.

Cyber Security in the AI Era: Staying Connected, Staying Protected

In an increasingly connected world, digital awareness and security have become essential skills for every future professional. This was the focus of Day 4 – Session 1 of the First-Year UG Induction Program 2026–27 at Rajarajeswari College of Engineering (RRCE).

The session, titled "The Future Is Connected… Are You Protected? Cyber Security: Your Superpower in the AI Era," was led by Mr. M. Siva Rama Krishna, who introduced students to the evolving landscape of cyber security, digital safety, ethical hacking, AI, and responsible online practices.

Through practical insights and engaging discussions, students gained a better understanding of common digital threats and the importance of protecting their personal information, practising responsible online behaviour, and developing security awareness in an AI-driven environment.

The session provided an informative and valuable learning experience, empowering students to think securely, act responsibly, and confidently navigate the digital world.

Ideas into Action: Building Future-Ready Innovators

Innovation begins when ideas move beyond imagination and become meaningful action. This was the central theme of Day 4 – Session 3 of the First-Year UG Induction Program 2026–27 at Rajarajeswari College of Engineering (RRCE).

The session, "Ideas into Action," was led by Mr. Kaaranji Shreedhar, Co-Founder & Creative Growth Strategist, BrandMint AI Pvt. Ltd.
Students explored the importance of coding, cybersecurity, digital skills, digital creativity, and design thinking in transforming ideas into practical solutions. The session highlighted the need for continuous learning and adaptability in an increasingly AI-driven and technology-focused world.

Through an interactive and engaging approach, students were encouraged to think creatively, experiment with ideas, embrace innovation, and develop future-ready skills.
The session concluded with enthusiastic participation, inspiring the young learners to turn their ideas into action and confidently prepare for the challenges and opportunities of tomorrow.

Building Future-Ready Skills Through Creativity, AI & Social Responsibility

Learning becomes meaningful when students get the opportunity to explore, create, and apply new ideas. This spirit was reflected in the Skill Development Session conducted during the First-Year UG Induction Program 2026–27 at Rajarajeswari College of Engineering (RRCE), in association with Agastya International Foundation.

The programme was led by Mr. Dayanand Rathod, Program Manager, Agastya International Foundation, along with trainers Ms. Shazia Banu, Mr. Mahesh, and Mr. Chandan Kashyap.

The sessions covered Artificial Intelligence, Social Activities, and Creative Skill Development, providing students with opportunities to explore technology, creativity, teamwork, and social engagement.

Through interactive learning, students were encouraged to strengthen their creativity, confidence, digital skills, innovative thinking, and social responsibility. The programme helped them recognise the importance of developing both technical and life skills for their academic, professional, and personal growth.

The session concluded with enthusiastic participation from the first-year students, making it a meaningful and enriching learning experience.

Learn. Create. Innovate. Make a Difference.

Planning Today, Building Tomorrow

Rajarajeswari College of Engineering (RRCE) conducted the first session of the First-Year UG Induction Program 2026–27 on 11 August 2026 at the Dr. APJ Abdul Kalam Conference Hall, RRCE.

The session, titled "Simple Planning to Have a Better Future," was led by Dr. K. S. Lakshminarayana, Professor, Department of MBA, RRCE. The session encouraged students to approach their engineering journey with clarity, confidence, smart planning and purpose, helping them understand the importance of setting goals and planning effectively for their academic and personal growth.

The session marked a meaningful beginning to the students' journey at RRCE, inspiring them to plan today, learn continuously and build a better future.

SESSION 2 - Report:

Financial Literacy for a Stronger Tomorrow

Rajarajeswari College of Engineering (RRCE) conducted Session 2 of the First-Year UG Induction Program 2026–27 on "The Power of Financial Literacy" on 11 August 2026 at the Dr. APJ Abdul Kalam Conference Hall.

The session was led by Mr. Yuvaraja, Founder & CEO, BOHO FINSERV Pvt. Ltd., Bengaluru, and Ms. Nikitha Sarika Raj, Certified Financial Planner, BOHO FINSERV Pvt. Ltd., Bengaluru.

The speakers highlighted the importance of financial awareness, smart money management, financial planning and responsible decision-making. The session equipped students with essential knowledge to develop sound financial habits and make informed decisions for a secure and successful future.

Learn today. Plan wisely. Build a financially stronger tomorrow!

Where Talent Meets Tradition

Rajarajeswari College of Engineering (RRCE) conducted a Cultural Talent Hunt as part of the First-Year UG Induction Program 2026–27 on 11 August 2026 at the Dr. APJ Abdul Kalam Conference Hall, RRCE.

The event, led by Dr. Deepika J, Associate Dean Academics & Cultural Head, RRCE, provided an enthusiastic platform for first-year students to showcase their talents, express creativity and celebrate cultural diversity. Students actively participated and brought the stage alive through their artistic performances and creative expressions.

The programme created a lively and welcoming atmosphere, helping students build confidence, connect with their peers and discover their talents as they began their journey at RRCE.

Where talent meets tradition, and creativity takes centre stage!

Ideas to Impact: Communication for Future Professionals

Rajarajeswari College of Engineering (RRCE) conducted Session 1 of the First-Year UG Induction Program 2026–27 on 12 August 2026 at the Dr. APJ Abdul Kalam Conference Hall, RRCE.

The session on "Ideas to Impact: Communication Skills for Future Professionals" was led by Mr. Koppada Kiran, Managing Director – Grantek and Professor of Practice & Entrepreneur Trainer. The session focused on strengthening students' communication skills, confidence, professional abilities and entrepreneurial mindset, encouraging them to express ideas effectively and transform them into meaningful impact.

The engaging session provided first-year students with valuable insights as they began their professional journey, inspiring them to learn, communicate, create and make an impact.

Empowering Future Engineers with Generative AI

Rajarajeswari College of Engineering (RRCE) conducted Session 2 of the First-Year UG Induction Program 2026–27 on 12 August 2026 at the Dr. APJ Abdul Kalam Conference Hall, RRCE.

The session on “Generative AI and Prompt Engineering for Future Engineers” was led by Dr. Mamatha B, Associate Professor & HoD, Department of AI & ML, RRCE.

The session introduced students to the evolving world of Generative AI, Prompt Engineering, and emerging AI applications, highlighting their growing relevance in engineering and innovation. Students gained insights into developing future-ready digital skills, creative thinking, effective AI interaction, and an innovative mindset.

The engaging session encouraged students to explore AI as a powerful tool for learning, creativity and problem-solving, inspiring them to embrace emerging technologies and prepare confidently for the future.

Play. Participate. Connect. Grow.

Rajarajeswari College of Engineering (RRCE) conducted Session 3 of the First-Year UG Induction Program 2026–27 on 12 August 2026 at the Dr. A.P.J. Abdul Kalam Conference Hall, RRCE Campus.

The Activity Sports session was led by Mr. Mallikarjun B. H., M.P.Ed, Physical Education Director, RRCE, and provided first-year students with an engaging platform to participate in physical and team-based activities.

The session focused on fostering teamwork, physical fitness, confidence, leadership and collaboration, while highlighting the importance of maintaining an active and healthy lifestyle beyond the classroom. Students participated enthusiastically, building team spirit, strengthening peer connections and experiencing the joy of learning through activity and interaction.

The session added energy and enthusiasm to the induction journey, encouraging students to embrace fitness, friendship, participation and a positive campus spirit.

Shaping the Future Through Artificial Intelligence

Rajarajeswari College of Engineering (RRCE) conducted an insightful session as part of the First-Year UG Induction Program 2026–27 on 13 August 2026 at the Dr. APJ Abdul Kalam Conference Hall, RRCE.

The session on “The AI Revolution: Shaping the Future of Engineering and Society” was led by Dr. K. B. Raja, Professor, Department of AI & ML, RRCE.

The session provided first-year students with valuable insights into the rapidly evolving world of Artificial Intelligence and its transformative influence on engineering, innovation, society and future career opportunities. It encouraged students to understand the growing role of AI, embrace emerging technologies and develop an adaptable mindset for an AI-driven future.

The engaging session inspired students to look beyond conventional approaches, explore the possibilities of AI, and recognise their role in shaping the technological future of society.

Think Creatively. Learn Innovatively. Build the Future.

Rajarajeswari College of Engineering (RRCE) conducted an inspiring session as part of the First-Year UG Induction Program 2026–27 on 13 August 2026 at the Dr. APJ Abdul Kalam Conference Hall, RRCE.
The session on "Design Thinking and Creative Learning" was led by Dr. T. C. Manjunath, Professor & Dean – Research, RRCE.

The session encouraged first-year students to explore the power of creative thinking, innovative ideas, effective problem-solving and learner-centric approaches. Through the principles of design thinking and creative learning, students were motivated to question conventional ideas, imagine new possibilities and approach challenges from different perspectives.

The engaging session highlighted the importance of transforming ideas into meaningful solutions and developing an innovative mindset essential for becoming future-ready engineers.
The session served as an enriching learning experience, inspiring students to think differently, learn creatively and innovate with purpose.

Discipline. Lead. Serve. Inspire.

Rajarajeswari College of Engineering (RRCE) conducted an NCC Orientation Session as part of the First-Year UG Induction Program 2026–27 on 14 August 2026 at the Dr. APJ Abdul Kalam Conference Hall, RRCE.

The session was led by Sub. Lt. Dr. Thanuj Kumar M., Associate NCC Officer (ANO), 1 KAR Naval Unit NCC, and Dean – Associate Student Affairs.

The session introduced students to the core values of discipline, leadership, patriotism, teamwork and national service, while highlighting the role of NCC in developing confidence, character and responsible citizenship.

The orientation inspired students to embrace the spirit of service, leadership and commitment, encouraging them to contribute positively to society and the nation.

FIRST-YEAR UG INDUCTION PROGRAM 2026–27

03 AUGUST – 14 AUGUST 2026

A Journey of Learning • Inspiration • Innovation & Growth

The induction program provided first-year students with a meaningful foundation for their engineering journey through academic orientation, skill development, innovation, technology awareness, sports, cultural activities, leadership and social responsibility.

PROGRAM OUTCOMES

- **Academic Readiness** – Understanding the academic environment, curriculum and expectations of engineering education.
- **Future-Ready Skills** – Developing communication, digital, AI and professional skills.
- **Innovation & Creativity** – Encouraging design thinking, problem-solving and an innovative mindset.
- **Personal Development** – Building confidence, self-belief, teamwork and leadership qualities.
- **Health & Well**-being – Promoting fitness, sports participation and a balanced student life.
- **Social Responsibility** – Creating awareness of NCC, NSS, community service and responsible citizenship.
- **Career Awareness** – Providing early exposure to industry expectations and professional preparedness.
- **Campus Integration** – Helping students connect, participate and confidently become part of the RRCE community.
