VISION

To empower young minds through technology, research, and innovation, to produce technically competent and socially responsible professionals in higher education.

MISSION

To deliver excellence in education through innovative teaching, impactful research, and continuous skill development, preparing students to meet global challenges with technical expertise and ethical responsibility.

To foster a transformative learning environment that integrates technology, research, and practical experience, empowering students to become skilled professionals and socially conscious leaders.

To cultivate a culture of lifelong learning and professional excellence by encouraging creativity, research, and community engagement, equipping students with the skills to thrive in a dynamic world

To provide a holistic educational experience that combines advanced technology, hands-on research, and community-focused learning, shaping students into competent, ethical professionals who contribute positively to society.

CHAIRMAN'S VOICE

Dear Alumnus,

Dr.A.C.Shanmugam

B.A.LLB, FIMSA, FRCPS (Glasgow, UK)

Founder Chairman

Rajarajeswari Group of Institutions

RajaRajeswari College of Engineering established in the year 2006 indeed has come a very long way. With NBA and NAAC “A+” Grade Accreditations, today RRCE is considered as one of the most eminent colleges of Bengaluru. Maintaining the momentum, we must focus our attention on the present so that the future too, is as dynamic as our past. We must march on with confidence and bring about necessary changes to create a brighter future of this great institution. A future that outshines the glorious past!

The Alumni of the college who with their visions, dreams, aspirations and hopes, have contributed and driven the growth of the organizations they served thus bringing repute to the Institute.

My message to all the alumni is come, join hands together, to form one family and be the largest network that will shine the name of the group in all segments.

EXECUTIVE DIRECTOR'S VOICE

Dr.Vijayanand .S,

Executive Director, **Rajarajeswari Group of Institutions**

The aim of any institution should be to teach students to LEARN, not just STUDY. Hence, we strive to travel beyond the boundaries of mere books. We have realized that the future is abstract and unknown but the youth in our hands are real and can be molded.

Dear students, "You are the nation-builders. You are the movers of technology. You are the agents of change." It is our fervent hope that the years that you spent in RajaRajeswari College of Engineering would have enabled you to equip with leadership and managerial skills. The knowledge that you have gained, the fine qualities that you have imbibed and the skills that you will learnt will be your major contribution to your parents, to society, and to the nation.

We have invested our trust on our students and I am very happy to state here that our alumni have really done us proud. This event gives opportunity to renew the bonds between the alumni and their Alma Mater, reflect the situation of the college today and to strengthen the relationship among the alumni themselves.

"We cannot always build the future for our youth, but we can build our youth for the future."

VOICE OF ALUMNI

Mr. Zeeshan Ahmed
1RRME052, 2013 batch

I am currently the Innovation Lead at Daimler Truck Innovation Center India (DTICI), with over 13 years of experience in powertrain engineering, specializing in electric axle (eAxle) systems. As an alumnus of Rajarajeswari College of Engineering, my journey from campus to leading innovation initiatives in a global organization has been shaped by a strong grounding in fundamentals and a continuous willingness to learn and adapt.

Over the years, I have had the opportunity to work on multiple global projects, taking ideas from concept to production while solving real-world challenges in next-generation electric mobility. In my current role, I focus on driving innovation by collaborating with cross-functional teams, startups, and academic institutions to build practical, future-ready solutions.

I strongly believe that curiosity, consistency, and the courage to take on challenging problems are key to building a meaningful engineering career. My advice to students is to stay hands-on, keep learning, and not be afraid to think beyond conventional boundaries.
